

1. Header styling not proper, shadow missing, check the HTML structure
2. Left panel height needs be adjusted as per the viewport/window size
3. Left Panel: Update the spacing between icon and menu text
4. 'Create New Document' button hover effect is not proper
5. Notification icon used from font awesome library, please check the HTML structure
6. For header right user dropdown, update the CSS for down arrow icon alignment
7. If I click on 'Create New Document', header seems to be overlapped on next page. Only rebranding pages will have the header changes and not old. If I refresh the page then it reloads the old header. Please check the scenario
