Below is the feedback from ADP for METSO ACA file.

Here is the report as promised. You will note that I have incorporated your previous feedback, and highlighted in yellow 3 new employees, that were not indicated in the previous review. I also added my feedback to a few of records. During my review I have found an issue with how multiple events are being passed. That is called out on the report. I've added a screenshot below of the second offers that are overwriting the open enrollment events for these employees. Please let me know if you have any questions or concerns.

```
37927 </Dependent>
37928 <Offer>
37929 <EventReason>Employee Data Change</EventReason>
37930 <EventDate>04/30/2017</EventDate>
37931 <CoverageStartDate>01/01/2017</CoverageStartDate>
37932 <PlanYearStartDate>01/01/2017</PlanYearStartDate>
37933 <PlanYearEndDate>12/31/2017</PlanYearEndDate>
37934 <TransactionDate>04/04/2017 08:51:27.590000 PM</TransactionDate>
37935 </Offer>
37936 <SelectedCoverage>
```

Thanks,
Amit Thorve
