**Subject:** Need input on ACA reports not in use on Production

Hi Jennifer,

As per our internal ACA Team discussion, we have identified below two points which are not in use on Production and need to be removed.

- 1. Global 1094C Report :** This report has never been used on production. This report was supposed to be used for filling Part 4 of 1094C form of selected companies. There are also some issues related to this. We had implemented a workaround for this report last year by giving an UI (ACA Customization->ACA 1094C Parameters Tab) to enter the Part 4. We have no such development plan to work on issues related to Global level 1094C Report.
- 2. Global Loss and Gain Eligibility Report :** This report has some performance issues and is not in use. This report has been removed from Azure environment.

Can you provide us approval to remove these reports from Production.

Let us know in-case you need more information regarding this or we can have a call to discuss this.

Regards,  
Ramya Tantry
